CALL FOR CYBERSECURITY STARTUPS

Europe needs its own security champions.
We are looking for the founders who will build them. From AI agents to satellites, what needs protecting extends far beyond corporate networks. European teams have the expertise to build the defences for this new era: if you lead one, we want to support you from your first institutional funding round. Neva SGR, the venture capital firm of the Intesa Sanpaolo Group, invests in startups building the next generation of security.

Company of INTESA SANPAOLO

Who we are looking for

We are looking for one or more European startups ready for their first institutional funding round: a product at an advanced stage of development or already on the market, a team with deep technical expertise, and international ambition.

How it works

- **Neva Equity ticket:** €3-5M, including as part of larger rounds with other investors
- **Focus:** cybersecurity and space security
- **Stage:** Seed – Series A (first institutional funding round)

Focus areas

CYBER

- Enterprise AI governance and security
- AI for security operations
- Continuous offensive security and remediation
- Code and software supply chain security
- Identity security and zero trust
- Protection against impersonation and deepfakes
- OT/ICS and critical infrastructure security
- Post-quantum cryptography
- Network security

SPACE

- Space situational awareness and collision prevention
- Satellite and ground segment cybersecurity
- Protection of space assets against interference and threats

Mandatory requirements

- **Sector:** the company develops a product or platform in one of the focus areas listed above
- **Traction:** a product at an advanced stage of development or already on the market, with active design partners or initial contracts, including pilot projects, with companies, public administrations, space agencies or satellite operators
- **Location:** based in Europe
- **Company status:** an active company registered in the business register or its foreign equivalent

How to apply

Deadline: 31 January 2027
